

CURRICULUM VITAE

(May, 2024)

Daniel Umpierre de Moraes, MSc, Ph.D.

Citation name: Umpierre D.

ADDRESS

Work:

Assistant Professor, Department of Public Health
Universidade Federal do Rio Grande do Sul (UFRGS)
Hospital de Clínicas de Porto Alegre (HCPA)
Rua Ramiro Barcelos, 2350
Zip code: 90035-903
Porto Alegre, RS, Brazil
E-mail: daniel.umpierre@gmail.com

Website: www.dumpierre.com

Open Science Framework: <https://osf.io/r53ev>

Conflicts of Interest

In 2017 and 2024, I received travel funding from my employer to present scientific outputs at an international conference and to develop international collaboration, respectively. In 2018 and 2023, I received travel funding from the University of California (Berkeley Initiative for Transparency in Social Sciences) to participate in workshops on research transparency and reproducibility. From 2019 to 2023, I served as the director of the Clinical Research Center at the Hospital de Clínicas de Porto Alegre. This center hosts studies sponsored by several companies in the pharmaceutical industry. Neither I nor my laboratory have received funding for industry-sponsored studies. Since 2023, I have been serving in two editorial positions: (1) Protocol Editor at BMC Systematic Reviews; and (2) Editor-in-Chief at the Clinical and Biomedical Research, a scientific journal maintained by the Hospital de Clínicas de Porto Alegre and the School of Medicine at UFRGS.

EDUCATION

Federal University of Rio Grande do Sul, September 2012 to December 2015

Post-doctoral fellow, Health Technology Assessment, Supervisor: Dr. Carisi A. Polanczyk

Federal University of Rio Grande do Sul, March 2008 to March 2012

Ph.D. in Health Sciences (Cardiovascular Sciences), Mentor: Dr. Jorge P. Ribeiro

University of Texas at Austin, July 2008 to June 2009

Visiting Ph.D. student, Mentor: Dr. Hirofumi Tanaka

Federal University of Rio Grande do Sul, March 2006 to December 2007

Master of Science, Mentor: Dr. Ricardo Stein

Federal University of Rio Grande do Sul, March 2001 to December 2004

Bachelor of Science, Exercise Sciences, Mentor: Dr. Alvaro Reischak-Oliveira

POSITIONS

Prior

Post-doctoral fellow, Health Technology Assessment Institute (since 09/2012)

Co-Director, Exercise Pathophysiology Research Laboratory (since 09/2012)
Hospital de Clínicas de Porto Alegre

Advisor, Graduate Program in Cardiology and Cardiovascular Sciences (currently mentoring Master and PhD students)
Federal University of Rio Grande do Sul

Bibliometric metrics (as per Google Scholar in May, 2024 // Scopus Author ID 23095894900)

Peer-reviewed papers: 76

Book chapters: 5

Total citations (Google Scholar): 5073

h-index (Google Scholar): 32

Exhaustive publication list in Google Scholar: [link here](#)

Exhaustive publication list in PubMed: [link here](#)

List of publicationst (in reverse chronological order)

76. Feter JN, Feter N, **Umpierre D**. Racial health disparities: a population-based analysis of physical activity and diabetes-related complications in Brazil. *Public Health* (accepted).
75. Dourado-Neto FM, Oliveira NL, Ricardo LIC, Santos L, Nardi AT, Botton CE, Pfeifer LO, Vasques LM, Santos, LP, da Silva LN, Moraes BG, Helal L, **Umpierre D**. Analysis of health status of older adults users of a municipal physical activity program. *Rev Bras Med Fam Comunidade*. 2023;18(45):3480-3497.
74. MF Ambrosim, VHG Neto, D Umpierre, AS Leopoldo, L Carletti. Health profile of individuals participating in a public exercise program. *Science & Sports*. 2023, 8(7), 734. e1-734.
73. AT De Nardi, LM Galliano, NL Oliveira, **Umpierre D**. Quality of reporting in abstracts of clinical trials using physical activity interventions: a cross-sectional analysis using the CONSORT for Abstracts. *Journal of Evidence-Based Healthcare*. 2023, 5, e5173-e5173.
72. Leite MN, Hoffmann TC, Helal L, **Umpierre D**, Yamato TP. Helping to know about the intervention: The Template for Intervention Description and Replication (TIDieR) checklist is now available in Brazilian Portuguese. *Braz J Phys Ther*. 2023, 27(1):100483.
71. Schneider VM, Domingues LB, **Umpierre D**, Tanaka H, Ferrari R. Exercise characteristics and blood pressure reduction after combined aerobic and resistance training: a systematic review with meta-analysis and meta-regression. *J Hypertens*. 2023, 41(7):1068-1076.
70. Feter N, Leite JS, Weymar MK, Dumith SC, **Umpierre D**, Caputo EL. Physical activity during early life and the risk of all-cause mortality in midlife: findings from a birth cohort study. *Eur J Public Health*. 2023 Oct 10;33(5):872-877.
69. Macedo ACP, Schaan CW, Bock PM, Pinto MB, Botton CE, **Umpierre D**, Schaan BD. Cardiorespiratory fitness in individuals with type 2 diabetes mellitus: a systematic review and meta-analysis. *Arch Endocrinol Metab*. 2023, 25;67(5):e230040.
68. da Silva LXN, Leite JS, Ignacio AC, Massierer FD, Pfeifer LO, Dos Santos Cardoso LA, Alano TS, **Umpierre D**. The "home-based exercise for breast and prostate cancer patients during treatment-a feasibility trial" (BENEFIT CA trial): rationale and methodological protocol. *Pilot Feasibility Stud*. 2023, 26;9(1): 165.
67. De Nardi AT, Pfeifer LO, Oliveira NL, Botton CE, Santos LP, **Umpierre D**. Perspectives of older participants on the delivery of individual results: Study within a trial (SWAT) hosted by the HAEL Study. *Research Methods in Medicine & Health Sciences* 2023, 4(2):61-70.
66. Leite MN, Hoffmann TC, Helal L, **Umpierre D**, Yamato TP. Helping to know about the intervention: The Template for Intervention Description and Replication (TIDieR) checklist is now available in Brazilian Portuguese. *Braz J Phys Ther*. 2023; 27(1):100483.
65. Calonego C, Alberton CL, Santagnello SB, Schaun GZ, Petrarca CR, **Umpierre D**, Portella EG, Andrade LS, Pinheiro RB, Gomes MLB, Häfele MS, David GB, Pinto RS, Henkin JS, Pinto

- SS. Impact of Resistance Training Volume on Physical and Perceptual Outcomes of Breast Cancer Survivors Submitted to a Combined Training Program: A Randomized, Single-Blinded Study. *J Phys Act Health*. 2023; 23:1-13.
64. Pfeifer LO, Helal L, Oliveira NL, **Umpierre D**. Correlates of functional physical capacity in physically active older adults: a conceptual-framework-based cross-sectional analysis of social determinants of health and clinical parameters. *Aging Clin Exp Res*. 2023, 35(1):127-136.
63. Botton CE, Santos LP, Moraes BG, Monteiro RB, Gomes MLB, Wilhelm EN, Pinto SS, **Umpierre D**. Recruitment methods and yield rates in a clinical trial of physical exercise for older adults with hypertension-HAEL Study: a study within a trial. *BMC Med Res Methodol*, 2022, 22(1):42.
62. Rildo de Souza WJ, Rocha DQ, Guerra PH, Martins CL, Meneses CH, **Umpierre D**, Silva LR, Souza Filho AN, Cavalcante FVSA, Sandreschi PF, Barros MVG. *Rev Panam Salud Publica*, 2022;46:e64.
61. Tenório MCM et al, for The Brazilian Physical Activity Guidelines Working Group. Physical Activity Guidelines for the Brazilian Population: Development and Methods. *J Phys Act Health*, 2022, 13:1-7.
60. **Umpierre D** et al, for The Brazilian Physical Activity Guidelines Working Group. Physical Activity Guidelines for the Brazilian Population: Recommendations Report. *J Phys Act Health*, 2022, 13:1-8.
59. Pfeifer LO, De Nardi AT, da Silva LXN, Botton CE, do Nascimento DM, Teodoro JL, Schaan BD, **Umpierre D**. Association Between Physical Exercise Interventions Participation and Functional Capacity in Individuals with Type 2 Diabetes: A Systematic Review and Meta-Analysis of Controlled Trials. *Sports Med Open* 2022, 8(1):34.

AWARDS or TRAVEL AWARDS

2023 | Travel award for BITSS RT2 Workshop - Research Transparency and Reproducibility Training, University of California (Berkeley).

2021 | BITSS Catalyst Grant for Advancing Transparent, Reproducible, and Ethical Research, Berkeley Initiative for Transparency in the Social Sciences, University of California (Berkeley).

2020 | Young Travel Award (co-autor; premiada: Cíntia E. Botton - The SEES Initiative), The EQUATOR Network; BIH QUEST (Alemanha).

2019 | Building Capacity Bursaries (The SEES Initiative) - EBMLive 2019, Oxford University.

2019 | BITSS Catalyst - Individual award to support the SITPS 2019, Berkeley Initiative for Transparency in Social Science - University of California (Berkeley).

2018 | Travel award for BITSS RT2 Workshop - Research Transparency and Reproducibility Training, University of California (Los Angeles).

2012 | PhD defense with honors, Universidade Federal do Rio Grande do Sul.

GRANT REVIEWS

Invest in Open Infrastructure – 2023

FAPEMIG Foundation – 2017

CNPq, Brazil – 2017 – ongoing

FAPERGS Foundation – 2013

INVITED LECTURES – Conferences

1. Scientific impact to whom? The value of open science – *Universidade Federal de Pelotas*. April, 2024. Pelotas, Brazil.
2. Challenges in physical activity programs for people with chronic disease – *Brazilian Congress of Physical Activity and Health*. November, 2023. Garopaba, Brazil.
3. Open Science. *Virtual Event – Universidade Federal de Pelotas*. June, 2020. Porto Alegre, Brazil. (International meeting)
4. An update on topics of research integrity. *International Symposium of Cardiology – Graduate Program of Cardiology, UFRGS*. November, 2018. Porto Alegre, Brazil. (International meeting)
5. Intervention studies: generation and use of clinical evidence. *National Symposium of Physical Education*. November, 2018. Pelotas, Brazil. (National meeting)
6. Evidence-based exercise sciences: practice makes perfect. *Congress of the RGS Cardiology Association*. 2018. Gramado, Brazil. (Regional meeting)
7. International Congress of Resistance Training and Sports Medicine. November, 2017. Rio de Janeiro, Brazil. (International meeting)
8. Brazilian Congress of Physical Activity and Health. November, 2017. Florianópolis, Brazil. (National meeting).
9. International Congress of Resistance Training and Sports Medicine. September, 2016. Rio de Janeiro, Brazil. (International meeting)
10. Evidence synthesis in exercise sciences: opportunities and limitations. Epidemiological seminars. Federal University of Pelotas, 2016
11. Concurrent training for body weight control (lecture 1)
Effects of aerobic exercise programs for body composition (lecture 2)

- Brazilian Congress of Nutrology. September, 2015. São Paulo, Brazil (National meeting).
12. Benefits of exercise for individuals with chronic diseases. Meeting in Sports Nutrition. September, 2015 (Local meeting).
13. Systematic reviews and meta-analyses. III Physical Activity and Public Health (PAPH) Course. Brazilian Society of Physical Activity and Health. August, 2015. Gramado, Brazil. (National course)
14. Clinical trials and intervention studies. III Physical Activity and Public Health (PAPH) Course. Brazilian Society of Physical Activity and Health. August, 2015. Gramado, Brazil. (National course)
15. Exercise, obesity and diabetes: insights on body weight and health. International Symposium on Sport, Health and Interdisciplinarity. August, 2015. Porto Alegre, Brazil. (International meeting)
16. Exercise and type 2 diabetes: lessons in prevention and treatment. Congress of Physical Education of the São Francisco Valley. April, 2015. Petrolina, Brazil. (National meeting)
17. Evidence-based strategies for weight loss (workshop, 8-h course). *Physical Education National Meeting*. March, 2015. Capão da Canoa, Brazil. (National meeting)
18. Exercise and weight loss: facts and evidence. *National Symposium of Physical Education*. November, 2014. Pelotas, Brazil. (National meeting)
19. Cardiovascular prevention in the era of statins. *National Symposium of Physical Education*. November, 2014. Pelotas, Brazil. (National meeting)
20. Exercise and Type 2 Diabetes. *Symposium on Applied Neuromechanics*. October, 2014. Caxias do Sul, Brazil. (International meeting)
21. Exercise training for special populations (workshop, 3-h course). *Symposium on Applied Neuromechanics*. October, 2014. Caxias do Sul, Brazil. (International meeting)
22. Three good reasons for prescribing exercises to obese individuals. *Congress of the RGS Cardiology Association*. August, 2014. Gramado, Brazil. (Regional meeting)
23. Exercise and Diabetes. *iSULBRA International Symposium*. May, 2014. Porto Alegre, Brazil. (International meeting)
24. Exercise basis for cardiovascular rehabilitation (workshop, 12-h course). *Physical Education National Meeting*. April, 2014. Capão da Canoa, Brazil. (National meeting)
25. Individualized exercise training (workshop, 12-h course). *Physical Education National Meeting*. April, 2014. Capão da Canoa, Brazil. (National meeting)
26. Role of the exercise physiologist in cardiac rehabilitation teams. *Congress of the RGS Cardiology Association*. June, 2013. Gramado, Brazil. (Regional meeting)
27. Patient care: from the cardiac clinic to the exercise. *Congress of the RGS Cardiology Association*. June, 2013. Gramado, Brazil. (Regional meeting)
28. Exercise Therapy: clinical applicability and physiological understanding. *International Symposium on Cardiovascular Epidemiology*. May, 2013. Porto Alegre, Brazil. (International meeting)
29. Physical activity and health. *National Symposium of Physical Education*. November, 2013. Pelotas, Brazil. (National meeting)
30. Metabolic syndrome and exercise. Brazilian Congress of Exercise Sciences. November, 2012. Goiânia, Brazil. (National meeting)
31. Exercise physiology: special issues in diabetes. *Meeting of Southern Brazilian Endocrinological Societies*. October, 2012. Gramado, Brazil. (Regional meeting)
32. Resistance training in chronic heart failure: functional and vascular aspects. *Brazilian Congress of Sports Medicine*. July, 2012. Porto Alegre, Brazil. (National meeting)
33. Evidence on exercise and endothelial dysfunction. *Congress of the RGS Cardiology Association*. June, 2012. Gramado, Brazil. (Regional meeting)
34. The pandemic of physical inactivity: summary of physical activity Lancet series. *Congress of the RGS Cardiology Association*. June, 2012. Gramado, Brazil. (Regional meeting)
35. Vascular function and exercise: the endothelium as clinical evidence. *Brazilian Congress of Cardiology/Physical Education Symposium*. September, 2011. Porto Alegre, Brazil. (National meeting)

- meeting)
36. Exercise training after myocardial infarction. Health Evidence Symposium. June, 2011. Porto Alegre, Brazil. (Local meeting)
 37. Cardiovascular markers in elite athletes. *Congress of the RGS Cardiology Association*. June, 2010. Gramado, Brazil. (Regional meeting)
 38. Basis of exercise bioenergetics. RGS Meeting of Physical Education. October, 2009. Porto Alegre Brazil. (Local meeting)
 39. Physical exercise for the prevention and treatment of cardiovascular diseases. Symposium of Evidence-Based Physical Exercise. July, 2009. Porto Alegre, Brazil. (International meeting)
 40. Hypertension and coronary artery disease in the aging. *Congress of the RGS Cardiology Association*. June, 2008. Gramado, Brazil. (Regional meeting)
 41. Resistance training for the cardiovascular system. *Congress of the RGS Cardiology Association*. June, 2008. Gramado, Brazil. (Regional meeting)
 42. Resistance training in patients with chronic heart failure: when and how to prescribe? *Congress of the RGS Cardiology Association*. June, 2007. Gramado, Brazil. (Regional meeting)
 43. Resistance training in cardiac patients (workshop, 8-h course). *Congress of the RGS Cardiology Association*. June, 2007. Gramado, Brazil. (Regional meeting)
 44. Exercise and coronary artery disease. *Seminar on Physical Activity, Health and Quality of Life*. August, 2006. Porto Alegre, Brazil. (Local meeting)
 45. Point: Resistance training is enough for the cardiovascular health? Counterpoint (Daniel Umpierre): Aerobic training is required for the cardiovascular health. *Congress of the RGS Cardiology Association*. June, 2006. Gramado, Brazil. (Regional meeting)

SYMPOSIUM AND ROUND TABLE CHAIR

1. Round table: Graded cardiopulmonary testing or 6-min walk test in chronic heart failure? Chair. *Congress of the RGS Cardiology Association*. June, 2012. Gramado, Brazil.
2. Round table: Comprehensive approaches in cardiac patients. *Congress of the RGS Cardiology Association*. June, 2011. Gramado, Brazil.
3. Point-counterpoint: Physical activity and health: no pain, no gain? Symposium of Evidence-Based Physical Exercise. July, 2009. Porto Alegre, Brazil.
4. Round table: Brazilian guidelines in cardiovascular rehabilitation. *Congress of the RGS Cardiology Association*. June, 2008. Gramado, Brazil.
5. Round table: Cardiovascular risk factors and physical exercise. *Congress of the RGS Cardiology Association*. June, 2007. Gramado, Brazil.
6. Key conference: Hypertension and exercise. *Congress of the RGS Cardiology Association*. June, 2006. Gramado, Brazil.

MEETING ORGANIZER and SCIENTIFIC BOARDS

1. Scientific Week – Hospital de Clínicas de Porto Alegre (“Semana Científica” HCPA) – From 2019 to 2022.
2. International Symposium for Transparency in Health Research. November, 2019. Porto Alegre, Brazil. Conference director.
3. Brazilian Congress of Physical Activity and Health. November, 2017. Florianópolis, Brazil. Scientific committee.
4. Hospital de Clínicas de Porto Alegre Science Week. September, 2017. Porto Alegre, Brazil. Scientific committee.
5. Hospital de Clínicas de Porto Alegre Science Week. September, 2014. Porto Alegre, Brazil. Scientific committee.

6. Physical Education Symposium in Cardiology. September, 2011. Porto Alegre, Brazil. Scientific committee.
7. Hospital de Clínicas de Porto Alegre Science Week. July, 2011. Porto Alegre, Brazil. Scientific committee.
8. Health Evidence Symposium. June, 2011. Porto Alegre, Brazil. Organizer.
9. Non-medical symposiums in cardiology (nursing, nutrition, psychology, physical education, physiotherapy). June, 2010. Gramado, Brazil. Co-organizer.
10. Hospital de Clínicas de Porto Alegre Science Week. May, 2010. Porto Alegre, Brazil. Organizing committee.
11. Symposium of Evidence-Based Physical Exercise. July, 2009. Porto Alegre, Brazil. Organizer.
12. Physical Education Symposium in Cardiology. June, 2008. Gramado, Brazil. Organizing committee.
13. Physical Education Symposium in Cardiology. June, 2006. Gramado, Brazil. Organizing committee.

GRANTS

Note: All amounts were requested/funded in Brazilian currency (Real, BRL). Amounts below are shown in USD by simple conversion.

Title: Impact of movement behaviors and social determinants of health on the incidence of type 2 diabetes and related complications: a synthesis of evidence and individual participant data meta-analysis

Funding Agency: National Council for Scientific and Technological Development (CNPq, Brazil)

Role: Principal Investigator

Date: January/2024 to July/2025

Description: This study aims to analyze the impact of 24-hour movement behaviors (physical activity, sedentary behavior, and sleep) and their interactions with social determinants of health on the risk for type 2 diabetes and related complications.

Amount: BRL 175,359 (Brazilian Real)

Title: Investigator productivity grant – CNPq PQ Scholarships– Level 2

Funding Agency: National Council for Scientific and Technological Development (CNPq, Brazil)

Role: Principal Investigator

Date: March/2023 to July/2026

Description: Two-center randomized, parallel, controlled trial which will compare a pragmatic combined training program with a health education program in 184 older adults with hypertension. This study will last 12 weeks with assessments conducted at baseline, previously to the group allocation, and after interventions. There is a set of secondary outcomes which show clinical importance to the elderly population and are possibly influenced by the tested intervention.

Amount: BRL 79.200 (Brazilian Real)

Title: Investigator productivity grant – CNPq PQ Scholarships– Level 2

Funding Agency: National Council for Scientific and Technological Development (CNPq, Brazil)

Role: Principal Investigator

Date: March 1st, 2017 to March 1st, 2020

Description: Two-center randomized, parallel, controlled trial which will compare a pragmatic combined training program with a health education program in 184 older adults with hypertension. This study will last 12 weeks with assessments conducted at baseline, previously to the group allocation, and after interventions. There is a set of secondary outcomes which show clinical importance to the elderly population and are possibly influenced by the tested intervention.

Amount: BRL 39.600 (Brazilian Real)

Title: The “Hypertension Approaches in the Elderly: a Lifestyle study” (HAEL Study)

Funding Agency: National Council for Scientific and Technological Development (CNPq, Brazil)

Role: Principal Investigator

Date: 07/01/2017 to 12/31/2019

Description: Two-center randomized, parallel, controlled trial which will compare a pragmatic combined training program with a health education program in 184 older adults with hypertension. This study will last 12 weeks with assessments conducted at baseline, previously to the group allocation, and after interventions. There is a set of secondary outcomes which show clinical importance to the elderly population and are possibly influenced by the tested intervention.

Amount: BRL 50.965 (Brazilian Real)

Title: National network for health technology assessments

Funding Agency: National Council for Scientific and Technological Development (CNPq, Brazil)

Role: Investigator / PI: Dr. Carisi Polanczyk

Date: April/2015 to September/2020

Description: The purpose of this multiproject proposal (76 research projects in several fields, mainly randomized clinical trials) is to: 1) establish the clinical effects of different health technologies, including the ones related to disease prevention (community campaigns) but also high-complexity interventions such as bariatric surgery, remote patient care for primary care (medical attention and exercise recommendations).

Amount: USD 3,913,043

Title: Locomotion in peripheral artery disease: muscular and hemodynamic influences

Funding Agency: Hospital de Clínicas de Porto Alegre - Research Incentive (FIPE/HCPA, Brazil)

Role: Principal Investigator

Date: 03/01/2013 to 12/31/2015

Description: The purpose of this project is to: 1) determine the association between abnormalities in vascular function and blood in lower-limbs of patients with peripheral artery disease (PAD), 2) determine the pattern of muscle activation in different gait velocities in patients with PAD.

Amount: USD 1,746

Title: Responses of blood pressure and vascular function to two aerobic exercise intensities in resistant hypertension

Funding Agency: Hospital de Clínicas de Porto Alegre - Research Incentive (FIPE/HCPA, Brazil)

Role: Principal Investigator

Date: 03/01/2013 to 02/25/2015

Description: The purpose of this project was to: 1) compare the 22-h ambulatory blood pressure after single sessions of aerobic exercise at low and moderate intensities in patients with resistant hypertension, 2) describe the 1-h postexercise hemodynamics in the non-exercised limb after low and moderate exercise intensities in patients with resistant hypertension.

Amount 1: USD 1,757 (project) | **Amount 2:** USD 2,174 (travel grant)

Title: Exercise training, cardiovascular risk, and inflammatory markers in patients with HIV-1 and AIDS users or non-users of pharmacological therapy

Funding Agency: Foundation for Research Support of the State of Rio Grande do Sul (FAPERGS, Brazil)

Role: Principal Investigator

Date: 06/01/2013 to 06/30/2014

Description: The purpose of this project was to: 1) determine the effects of a combined aerobic and resistance exercise training in patients with HIV separate in three groups according to the pharmacological therapy

Amount: USD 2,087

Title: Resistance training in patients with type 2 diabetes and autonomic neuropathy

Funding Agency: National Council for Scientific and Technological Development (CNPq, Brazil)

Role: Research fellow

Date: 01/01/2013 to 12/30/2014

Description: The original purpose of this project was to: 1) determine the effects of 3 months of resistance training in autonomic nervous system as well as in cardiovascular variables in diabetic patients with autonomic neuropathy. Due to 3 adverse effects (unrelated to the intervention), the project was substantially changed without major change in the amount received.

Amount: USD 17,000

Title: Vascular function, exercise and aging

Funding Agency: Coordination for the Improvement of Higher Education Personnel (CAPES, Brazil)

Role: Ph.D. student (responsible for the grant proposal)

Date: 07/01/2008 to 06/30/2009

Description: This grant related to an one-year salary/incentive for a research training abroad, which was conducted in The University of Texas at Austin, under the guidance of Dr. Hirofumi Tanaka.

Amount: USD 26,034

ADVISING, TEACHING AND SERVICE

FACULTY ADVISOR FOR UNDERGRADUATE STUDENTS

2013–2015: Adriano Cunha, Kinesiology Undergraduate. SOGIPA University.

2015–2016: Gaspar Silva, Kinesiology Undergraduate. Federal University of Rio Grande do Sul.

2016–2020: Raíssa Monteiro, Biomedicine Undergraduate. Unisinos.

2017–2021: Bruna Goes, Physical Therapy Undergraduate. PUCRS University.

2019–2020: Akemy Neubert Kamitoyo, Physical Therapy Undergraduate. PUCRS University.

2019–ongoing: Tainá Alano, MD Undergraduate. UFCSPA.

2020–ongoing: Linda Ariene dos Santos Cardoso, Biomedicine Undergraduate. UFCSPA.

2022–ongoing: Mikaelli Soares Wosniak, Public Health Undergraduate. UFRGS.

2022–ongoing: Helena Marques Morsch, MD Undergraduate. UFCSPA.

FACULTY ADVISOR FOR GRADUATE STUDENTS

Completed:

2012: Marta Brod. Masters degree. Federal University of Rio Grande do Sul.

2015: Lucas Porto Santos. Masters degree. Federal University of Rio Grande do Sul.

2015: Michel Arias Brentano. Doctoral degree. Federal University of Rio Grande do Sul.

2016: Karlyse Claudino Belli. Doctoral degree. Federal University of Rio Grande do Sul.

2016: Paula Figueiredo Silva. Doctoral degree. Federal University of Rio Grande do Sul.

2019: Fernando Matos Dourado Neto. Masters degree. Federal University of Rio Grande do Sul.

2019: Lucas Porto Santos. Doctoral degree. Federal University of Rio Grande do Sul.

2020: Laura Milán Vasques. Masters degree. Federal University of Rio Grande do Sul.

2020: Lucas Helal. Doctoral degree. Federal University of Rio Grande do Sul.

2021: Lucinéia Orsolin Pfeifer. Doctoral degree. Federal University of Rio Grande do Sul.

2021: Angélica Trevisan De Nardi. Doctoral degree. Federal University of Rio Grande do Sul.
2023: Andresa Conrado Ignacio. Masters degree. Federal University of Rio Grande do Sul.
2023: Aline Almeida da Silva Bonatto. Masters degree. Federal University of Rio Grande do Sul.
2024: Jayne Feter. Doctoral degree. Federal University of Rio Grande do Sul.
2024: Larissa Xavier Neves da Silva. Doctoral degree. Federal University of Rio Grande do Sul.
2024: Fernanda Dias Massierer. Masters degree. Federal University of Rio Grande do Sul.

- *Co-advising*:

2015: Rodrigo Ferrari Silva. Doctoral degree. Federal University of Rio Grande do Sul.
2016: César Augusto Silva. Master Science. Federal University of Rio Grande do Sul.
2017: Cíntia Ehlers Botton. Doctoral degree. Federal University of Rio Grande do Sul.

Current:

- 1) Douglas Xavier, Masters student.
- 2) Júlio César Theisen, Masters student.
- 3) Roberto Silva, Masters student.
- 4) Rodrigo Leal, Doctoral student.

SUPERVISION OF POSTDOCS

2021 - 2022: Lucas Helal
2018 - 2021: Nórton Luís Oliveira
2020 - 2020: Lucas Porto Santos
2017 - 2020: Cíntia Ehlers Botton
2018 - 2019: Leandro dos Santos
2019 - 2019: Luiza Isnardi Ricardo

COURSES AND GUEST LECTURES

Courses Taught at Federal University of Rio Grande do Sul

- Graduate Master Program (non-thesis students): Neuromuscular Specialization.
20-h course: Research Methods – 2015
- Graduate Master Program (non-thesis students): Neuromuscular Specialization.
30-h course: Exercise pathophysiology – 2015
- Graduate Program in Cardiovascular Sciences.
Co-teaching, 30-h course: Systematic review and meta-analysis – 2013, 2014
- Physiotherapy School.
Co-teaching, 60-h course: Basic epidemiology – July to November/2013
- Neuromuscular Specialization Course.
Guest lecturer (4 hours): Exercise and diabetes mellitus – 2014
- Exercise physiology. Undergraduate assistant. 2002/1, 2002/2, 2003/1, 2003/2

Courses Taught at Heart Institute of Rio Grande do Sul

- Graduate Master Program (non-thesis students): Exercise for Special Populations

50-h course: Exercise physiology – 2011, 2012

- Graduate Master Program (non-thesis students): Exercise for Special Populations 30-h course: Basic of athletic training – 2012

- Graduate Master Program (non-thesis students): Clinical Nutrition

Guest lecturer (4 hours). Exercise in weight loss nutritional programs – 2011, 2012

- Graduate Master and Doctoral Program (thesis MS and PhD students).

Guest lecturer (4 hours). Systematic review and meta-analysis – 2012, 2013, 2014

Invited Seminars in University Courses

- **Federal University of Paraíba** (future event)

Systematic reviews and meta-analysis (20-h course). October, 2015. João Pessoa, Brazil.

- **Federal University of Rio Grande do Norte**

Introduction for systematic reviews and meta-analysis (workshop, 12-h course). March, 2015. Natal, Brazil.

- **Federal University of Pelotas** - Graduate Program in Epidemiology

Statistical analyses in randomized clinical trials – 2013, 2015. Pelotas, Brazil.

- **UNIVATES University** - School of Nutrition

Physical exercise in special populations – 2013. Lajeado, Brazil.

- **Porto Alegre Methodist University** - Kinesiology School

Exercise bioenergetics during resistance training – 2006. Porto Alegre, Brazil.

SERVICE

PhD dissertation committees

1. Patricia Cristina Cardoso. 2022. Federal University of Rio Grande do Sul.
2. Juliana Beust Lima. 2021. Federal University of Rio Grande do Sul.
3. Marina Christ. 2021. Federal University of Pelotas.
4. Rejane Reich. 2021. Federal University of Rio Grande do Sul.
5. Gustavo Waclawovsky. 2019. Heart Institute of Rio Grande do Sul.
6. Marta Fioravanti Carpes. 2019. Federal University of Rio Grande do Sul.
7. Fernanda Stumpf Tonin. Federal University of Paraná.
8. Andrea Wendt. 2019. Federal University of Pelotas.
9. Marinei Lopes Pedralli. 2018. Heart Institute of Rio Grande do Sul.
10. Andrea Ramirez Varela. 2018. Federal University of Pelotas.
11. Marcelo Coertjens. 2018. Federal University of Rio Grande do Sul.
12. Maria Laura Rezem Brizio. 2018. Federal University of Pelotas.
13. Roberto Pacheco da Silva. 2018. Federal University of Rio Grande do Sul.
14. Glaube Conceição Riegel. 2017. Federal University of Rio Grande do Sul.
15. Anderson Donelli da Silveira. 2017. Federal University of Rio Grande do Sul.
16. Carolina de Vargas Nunes Coll. 2017. Federal University of Pelotas.
17. Rodrigo Sudatti Delevatti. 2016. Federal University of Rio Grande do Sul.
18. Marcelo Dias Camargo. 2016. Federal University of Rio Grande do Sul.
19. Paulo Lague Sehl. 2016. Federal University of Rio Grande do Sul.
20. Fernando Aguiar de Lemos. 2015. Federal University of Rio Grande do Sul.
21. Luís Fernando Deresz. 2015. Federal University of Health Sciences of Porto Alegre.
22. Rochelle Rocha Costa. 2015. Federal University of Rio Grande do Sul.
